Ref C.No. 882/46 A.6. dated 26-4-46.

Sir,

Assessment - Land Revenue - Harpanahalli taluk - F. 1355
Failure of crops remission - proposals - submitted.

I submit below a detailed report for the grant of graded dry remission for the affected villages of Harpanahalli taluk.

p.3 infra

a) Rainfall: Annexure I shows the amount of rainfall received during the year 1945. There were no timely rains during the year even at the beginning of the mungari cultivation season, there was no sufficient rainfall. The main crops such as cholam, sajja, korra and groundnut were sown with the inadequate rain received in July and August. They came up well, but the subsequent failure of rain in October and November affected the crops with the result that the yield was meagre. Most of the black cotton soil lands were left waste due to paucity of rainfall during the hingari cultivation season. Thus the crops-both mungari and hingari - failed in 8 villages of this taluk.

b) Irrigation sources: Muthigi is the only village having a wet ayacut of 58.67 acres out of the 8 affected villages. Dry cultivation is the main feature of the tract.

c) Prices of food crops.- The prices of food crops continue to be high. This is partly due to the after effects of war and also to the non availability of commodities.

p4 infra

Outturn statements: The affected villages are arranged in groups A and B. (Annexure II) villages in groups A and B are entitled for 75% and 50% remission respectively. According to the instructions contained in Board's Res. Rs. No. 1699 dated 20-6-39, the villages Aladahalli and Benninalli which have yielded an average outturn of As. 6. are not entitled for remission. But as a special case, these two villages may also be granted remission as they have in no way found better than the other villages and their outturn is just as. 6. I therefore recommend that graded remission under B.S.O. 14-6(ii) may be sanctioned according to the scale shown in Annexure II.

p3 infra

The above concession may also be extended to (1) unobjectionable Sivajama lands (2) minor inam lands charged with full assessment or quit rent or jodi equal to or more than the full assessment and (3) lands assigned temporarily (please see B.S.O. 14 (6a).

p3 end

As the statement of prices of important foodgrains submitted by the Revenue Divisional Officer Hospet is defective it is returned for rectification of the defects. It will be submitted on receipt from him.
